MOHAMED AKACHA

FULL STACK DEVELOPER

ABOUT ME

Motivated Full Stack Developer with expertise in JavaScript, Node.js, React, PostgreSQL, Git, Linux, Chai and MongoDB. Experienced in building scalable web applications, developing RESTful APIs, and crafting responsive user interfaces. Known for strong problem-solving abilities, attention to detail, and a passion for writing clean, maintainable code. Proficient in Docker and currently expanding knowledge in Cloud Computing (AWS, Azure, GCP) and CI/CD pipelines to deliver scalable, production-ready solutions.

EDUCATION

- **Université Toulouse III** (2018 — 2022)
 - Completed 3 years of advanced coursework in Calculus, Python Programming, Discrete Mathematics and more.
 - Gained experience in programming algorithms and problem-solving through discrete math applications.
- **FreeCodeCamp** (2022 — Present)
 - Completed six industry-recognized certifications in Responsive Web Design, JavaScript Algorithms and Data Structures, Front-End Development Libraries, Back-End Development and APIs, Data Visualization, Information Security and Quality Assurance.
 - Currently at ML & Scientific Computing Python.

EXPERIENCE

- **Freelance Developer** (March 2022 — Present)
Full-stack & Software Development
 - Developed and maintained custom websites and online stores for clients, ensuring user-friendly designs.
 - Managed databases, transitioning from Excel-based systems to more scalable solutions.
 - Built e-commerce platforms with payment integrations, product catalogs, and order management.
 - Provided ongoing maintenance, bug fixes, and performance optimization.
 - Collaborated with clients to define requirements and ensure technical alignment with business goals.
